Subject: You don't need Aliens to look and feel younger...

Hi [First Name], it's [Your Name] from [Your URL] with a late night realisation...

Two nights ago I was up late watching TV.

And you know how sometimes with all those channels there just doesn't seem to be anything worth watching?

Well, I decided to rummage through my stack of trusty DVD movies for some sure fire entertainment.

As I flipped and shuffled the cases, I came across an old favourite I hadn't watched in a long time... Cocoon.

I instantly smiled as I remembered the storyline...

How three elderly men, residents of a retirement home, stumble across a secret indoor swimming pool on a nearby property.

They have great fun swimming, splashing and goofing around in the water. So much so, they kind of feel energised and youthful again.

But what they don't know is - the pool is really a holding tank for Alien Cocoons - filled with a mysterious life-force energy.

And it isn't long before others notice the change in the men's appearance and zest for life.

It's a great, heart-warming story.

So much so, I started to wonder exactly what this life-force was?

Was it some kind of liquid that seeped into your body through your skin? And what did it do once inside you? Did it alter your body cell structure in some strange way?

Subject: Run Hamster run!

Hi [First Name], it's [Your Name] here from [Your URL] and I can't stop chuckling over this...

You see, my Grandson has a pet hamster called Cosmo. And Cosmo is a real little bundle of furry fun.

All day, everyday - Cosmo goes about his daily routine of eating, sleeping and running. And when I say running - I mean running a near Marathon in the little wheel in his cage.

Cosmo gets into that thing and away he goes, running his little heart out, non-stop for hours.

My Grandson says Cosmo must be the fittest Hamster in the whole world and is probably trying to get his leg muscles as big as a body builder's!

Well I don't know about the biggest leg muscles, but Cosmo certainly seems to be very happy with HIS home workout routine.

And Cosmo, in a weird sort of way, could have the answer to a problem faced by a lot of people.

I started thinking about what you'd need to have in place for a good exercise routine of your own - especially if you don't like going to a Gym and would rather workout at home.

After all, not everyone has the time, money and opportunity to travel down town to the local Gym do they?

So a home workout would be a great option for you to stay in shape, if you can find a fast, efficient way of doing it, right?

Well, help is at hand. I have the IDEAL answer to your problem...

< PRODUCT LINK HERE >

Subject: I adore her smooth, sleek lines...

Hi [First Name], it's [Your Name] here from [Your URL] and WOW! am I pumped...

Here's why...

I've just seen my very first Rolls Royce Phantom car up close!

And it was a beauty.

I was out walking and this four-wheeled vision of sophistication came purring down the road toward me. I wanted it as soon as I saw it.

See, the village where I live is a bit off the beaten track. We don't have an area where lots of millionaires live or anything like that. So to see a Rolls Royce Phantom glide by is an **EVENT** I can tell you!

I just had to admire the exquisite detail and drool as it cruised by with hardly a whisper.

The highly polished aluminium wheels, gleaming paint job and the smooth, sleek lines of the Silver Lady stopped me dead in my tracks.

There's no doubt about it, a smooth, sleek, well defined body will always get you noticed.

And it's not too different from how we view our own

Subject: Row yourself young again...

Hi [First Name], it's [Your Name] here from [Your URL] with a question for you...

Would you like to feel younger than you are now?

If you're anything like me, then I'm sure the answer would be YES!

So why am I asking this question anyway?

Well, I've just got back from the movies where I saw one of Brad Pitt's best films: The Curious Case of Benjamin Button.

If you haven't seen it yet, (and without giving too much away) it's about the life of Benjamin Button, who was born 80 + years old and lived his life backwards!

As I watched the film I wondered what it would be like to be Benjamin Button? What it would be like to have a body that got younger and stronger as you grew older? And if there was any way you could do the same thing - right now - today?

Well, there's no way I know of to turn yourself into Benjamin Button, or any way to age backwards.

But there's something you can do to make yourself feel and look a lot younger...

< PRODUCT LINK HERE >

Subject: How to beat a bully...

Hi [First Name], it's [Your Name] here from [Your URL] and I'm reminded of my school-days by a story I read in the paper today...

It's about school bullying - and how it's on the increase in some schools, but in others they're trying new methods to stamp it out.

Anyway, it reminded me of the day at school when the skinniest kid in our class, beat the school bully!

The skinny kid was called Larry. And Larry was thin. Now when I say thin, I mean he was pencil thin. If Larry stood sideways he looked invisible.

One fateful day the school bully decided to take a pop at Larry. He came over all aggressive and abusive, throwing insults at Larry for NO reason at all.

Then he made a BIG mistake. He slapped Larry across the head.

Larry stumbled a bit, looked up... and... KA-POW! he burst into action!

In a matter of a few seconds, Larry launched a lightning quick flurry of punches, slaps and back-handers that shocked everyone who saw it. He was all over the bully like a rash.

And after the bully slunk away, with his tail between his legs and the laughter of the gathered crowd ringing in his ears, Larry was hailed a hero. No-one took a pop at Larry after that.

Later, when me and my buddies talked about it, we realised the reason Larry beat the guy was because he was so quick and agile.

Now that lesson from years ago got me thinking about the best way to improve speed and agility.

After all, we all know our bodies get a less flexible as we get older, don't we?

So wouldn't it be great if you could easily maintain your speed, flexibility and endurance no matter what age you were right now?

Well, the best way I've found is...

Indoor Rowing Systems. And especially the MegaFlex Indoor Rower.

Using a unique flywheel resistance system the MegaFlex is designed to give you a workout that's low impact and puts no shock stresses on your tendons, muscles and ligaments.

And let's face it, who wouldn't want to stay as free and loose as possible?

< PRODUCT LINK HERE >

The MegaFlex Indoor Rower is on the market for a short time at a knock down price while stocks last. If I were you, I'd be winging my way over to seize this opportunity with both hands.

< PRODUCT LINK HERE >

Listen: You really should dive in and snap up this offer. Because if you don't try to keep yourself as flexible as possible... and you accidentally bump into Larry... don't say I didn't try to help ya!

Frank

P.S. And there's something else you should know. The food you eat can have a big impact on muscle and joint mobility. So the guys over at MegaFlex have added a fantastic diet and nutrition guide as a FREE bonus.
